

Children's Garden & Other programs

The Susquehanna Waldorf School provides Early Childhood programs designed to fit the needs of young children from the ages of 3 to 6 years. Our Afternoon Garden offers a full day option for children. The school provides an after school program to accommodate working parents. Please call the school for more information or visit our Admissions Office.

Other ways to get to know us....

Waldorf Wednesdays are held weekly where we visit the Early Childhood and Grades classes to observe the children and teachers in their learning environment.

Open Houses for Early Childhood and Grades are held throughout the year; a time to tour the school and speak with the teachers and Admissions Coordinator about Waldorf curriculum.

Susquehanna Waldorf School

Parent & Child Sweet Pea Program

This program provides support and inspiration for the development of parents' self-confidence in meeting the challenges of raising young children. Families are strengthened through parent education that explores child development, as well as facets including discipline, mealtimes and bedtimes. In addition, caregivers learn age-appropriate stories, songs and crafts, and have the opportunity to observe, first-hand, their little ones in movement, play, and social interaction.

In a nurturing setting, support and friendship grow out of weekly conversations with other parents and our facilitating teacher, while the toddlers explore the sweet (and sometimes bumpy!) beginnings of socialization with peers. Special attention is given to support the unfolding of children's interests, motor abilities, social interactions, and problem-solving skills.

Along with other compatible principles and teachings, our work incorporates the wisdom of Rudolf Steiner and Waldorf Education. Our aim is to help you establish a healthy foundation for your child's life. Come learn with us in this imaginative, purposeful and loving environment.

Come visit for a Waldorf Wednesday, Open House or School Tour.
